experience

Ministry of modernization of the Argentine Republic   **2018 - present**

· Creating and designing a Telegram bot with JavaScript and Clasp for Casa Rosada's internal reports, with Mauricio Macri and Marcos Peña as main users.

· Developing IODC's (International Open Data Conference) website with React and Redux.

· Developing a web app and map for showing all the flights that left and landed in Argentinian airports on a year using JavaScript (ES6), CartoDB, CartoJS, post GIS.

· Architecting a web app connected to Google Calendar that visualizes all the events in the Modernization Ministry as a clickable map with team filters. Built with VueJs, SASS, Gulp and Firebase authentication.

Freelance   **2017 - present**

Built UI components for a React Native app for Maxdream, a travel company. Now working freelance as a UI developer mainly with React.

Upwork   **2017 - 2018**

Storyboarded and created 360 illustrations for directors from Hollywood and Los Angeles. Also worked as a comic book artist for writers from different countries.

Audiovisual   **2017 - 2017**

Wrote and directed a short film selected at Buenos Aires International Festival of Independent Cinema (BAFICI). Edited publicity spots with Final Cut Pro X and Adobe Premiere at Verne Productora.
